## **WHAT IS RESPONDUS LOCKDOWN BROWSER?**

Respondus LockDown Browser is a secure browser for taking tests in Blackboard. It prevents you from printing, copying, going to another URL, or accessing other applications during a test. If a Blackboard test requires that Respondus LockDown Browser be used, you will not be able to take the test with a standard web browser.

Respondus LockDown Browser should only be used for taking Blackboard tests. It should not be used in other areas of Blackboard.
